

# Overall Alternatives Analysis and Route Study Methodology

1

#### STEP 1:

Develop and evaluate feasible alternatives for a new location roadway within the study area.

3

### STEP 3:

Hold a public meeting to gather feedback on presented alternatives.

5

## STEP 5:

Recommend an alternative for further study. Obtain public and stakeholder input.

Identify alternatives to carry forward for further evaluation.

2

### **STEP 4:**

Incorporate public feedback and stakeholder input to modify alternatives and analyze new alternatives.

4
